DETAILED ACTION

Allowable Subject Matter

1. Claims 18 – 25 are allowed over the prior art of record.
2. The following is a statement of reasons for the indication of allowable subject matter: Coman does not disclose teach or suggests depositing an InP based long wave-length active region on an InP based substrate and removing the InP substrate to expose an opposed second major surface of the long wave-length active region. Coman uses a sapphire substrate and the active region is of InAlGa_N. There is no motivation, aside from improper hindsight to alter the teachings of Coman to change the active region and the substrate to InP.
